This doctor has just seen 27 patients in the last 10 hours. During that time he bought 3 stocks, sold 2 and decided to keep the rest.

Actually, we made those investment decisions for him. Because managing investments is a full-time job. It requires daily care and constant supervision. It isn't smart to postpone investment decisions until the last patient has gone home.

That's why many doctors and medical corporations look to Financial Counselors, Inc. for professional investment management. Our full-time staff is right here in Kansas City, willing to work with you on a personal basis. We have the resources, time and expertise to help you plan for the future.

We'd like to tell you more about who we are and what we can do for you. Drop us a note on your letterhead and we'll mail you a booklet explaining the cost and all that F.C.I. has to offer. Or call our President, Mr. Graham T. Hunt, and ask him to tell you all about it.
